Since Miami-Dade County Public Schools underwrites very little of the school's athletic budget, the Barracuda Diamond Club- the official baseball booster organization at Coral Reef High School- was formed to actively support the baseball program in all areas of its operation. The booster club is a non-profit organization under the IRS 501-C not-for-profit corporate listing.

All contributions are tax exempt

Fundraising is a major aspect of the organization, and the sponsorship program is the featured element of an overall initiative to provide the funds necessary to purchase practice and game equipment such as baseballs, pitching machines, and uniforms. Not as obvious is the organization's efforts to consistently upgrade the facility at Barracuda Field. Expensive projects such as the construction of dugouts, batting cages, and outfield fencing, along with the purchase of field maintenance equipment, has all been incumbent on the booster club.

Introducing Coral Reef Baseball

"The philosophy and goals of Coral Reef Baseball"

Welcome- to the Coral Reef Barracuda Baseball Experience. Our goals are more than that of a winning season. Our progress and value should be measured in terms of what we can provide our student-athletes, the school and alumni, and the community. In this regard, we are constantly engaged in the following:

- ❖ **Developing** the best possible venue for our student-athletes to excel;
- ❖ **Maintaining** a strong moral and spiritual center to nurture integrity and character;
- ❖ **Upholding** the prestige and honor associated with Coral Reef High School and its academic programs; and
- ❖ **Striving** to become a credible force in the social fabric of the school and community by being a model of excellence.

Checks payable to: Barracuda Diamond Club, 13615 S.Dixie Hwy. #114-387, Miami, FL 33176
